

## Fast on-farm nutritional analysis of feed

Anytime and anywhere with just a push of a button

Analysis of forages and feed ingredients is essential for optimal livestock nutrition.

### The value of mobile feed analysis

#### Increased efficiency

- ✓ Direct on-farm feed analysis.

#### Instant ration calculation

- ✓ Optimize feed efficiency and animal health.

#### Cost saving

- ✓ Prevent overfeeding by precision feeding.

#### Quality assurance

- ✓ Buy & process feed ingredients with assurance of nutritional value.

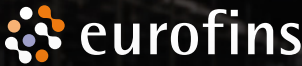

#### Enhanced consultancy

- ✓ Boost customer loyalty and acquisition through data-driven feed advice.

### Our ready-to-use applications

#### Forage analysis applications by Eurofins

Eurofins Agro emphasizes that its customers rely on best-in-class laboratory services to run their business profitably and sustainably. Combining Eurofins services with trinamiX's technology is the best way for the industry to improve livestock health and productivity.
