

trinamiX Mobile Spectroscopy Solution

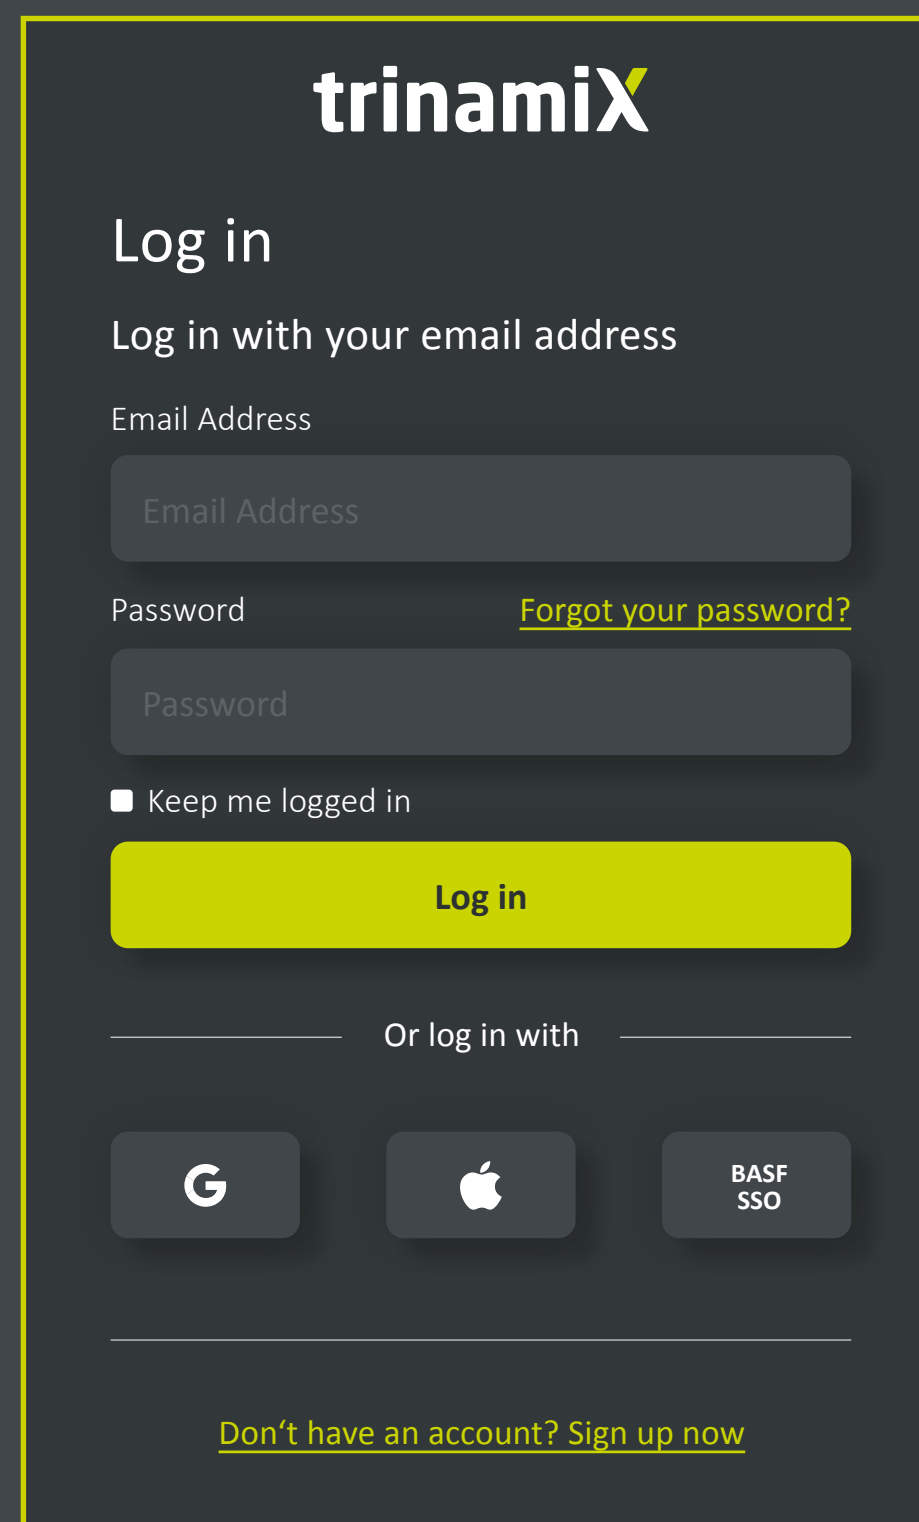

How to log in

Step 1

Log in to your account

Log in with the same email address or provider and login information that you used to create your account / sign-up.

trinamiX / BASF is reserved for trinamiX and BASF employees only.

The screenshot shows the trinamiX login interface. At the top is the trinamiX logo. Below it is the heading 'Log in' and the instruction 'Log in with your email address'. There are two input fields: 'Email Address' and 'Password'. A link for 'Forgot your password?' is next to the password field. Below the fields is a checkbox for 'Keep me logged in' and a yellow 'Log in' button. At the bottom, there are three social login options: Google, Apple, and BASF SSO. A link 'Don't have an account? Sign up now' is at the very bottom.

Step 2

Verification that it is you

To keep your information secure, we use a two-factor authentication method.

After entering your credentials and clicking **Log in**, an email with a verification code valid for 10 minutes will be automatically sent to your inbox.

Enter this code in the appropriate field and click **Verify code** to confirm your identity and access your account.

You are now ready to calibrate your spectrometer and perform your first measurements.

trinamiX

A brand of
BASF – We create chemistry

This block contains two screenshots of the verification process. The top screenshot shows the login page with the 'Log in' button highlighted in yellow. The bottom screenshot shows the verification page with the message 'Verification code has been sent to your inbox. Please copy it into the input box below'. It features an input field for the verification code, a 'Verify code' button, and a 'Send a new code' button, all highlighted in yellow.
