

trinamiX Mobile Spectroscopy Solution

How to sign up

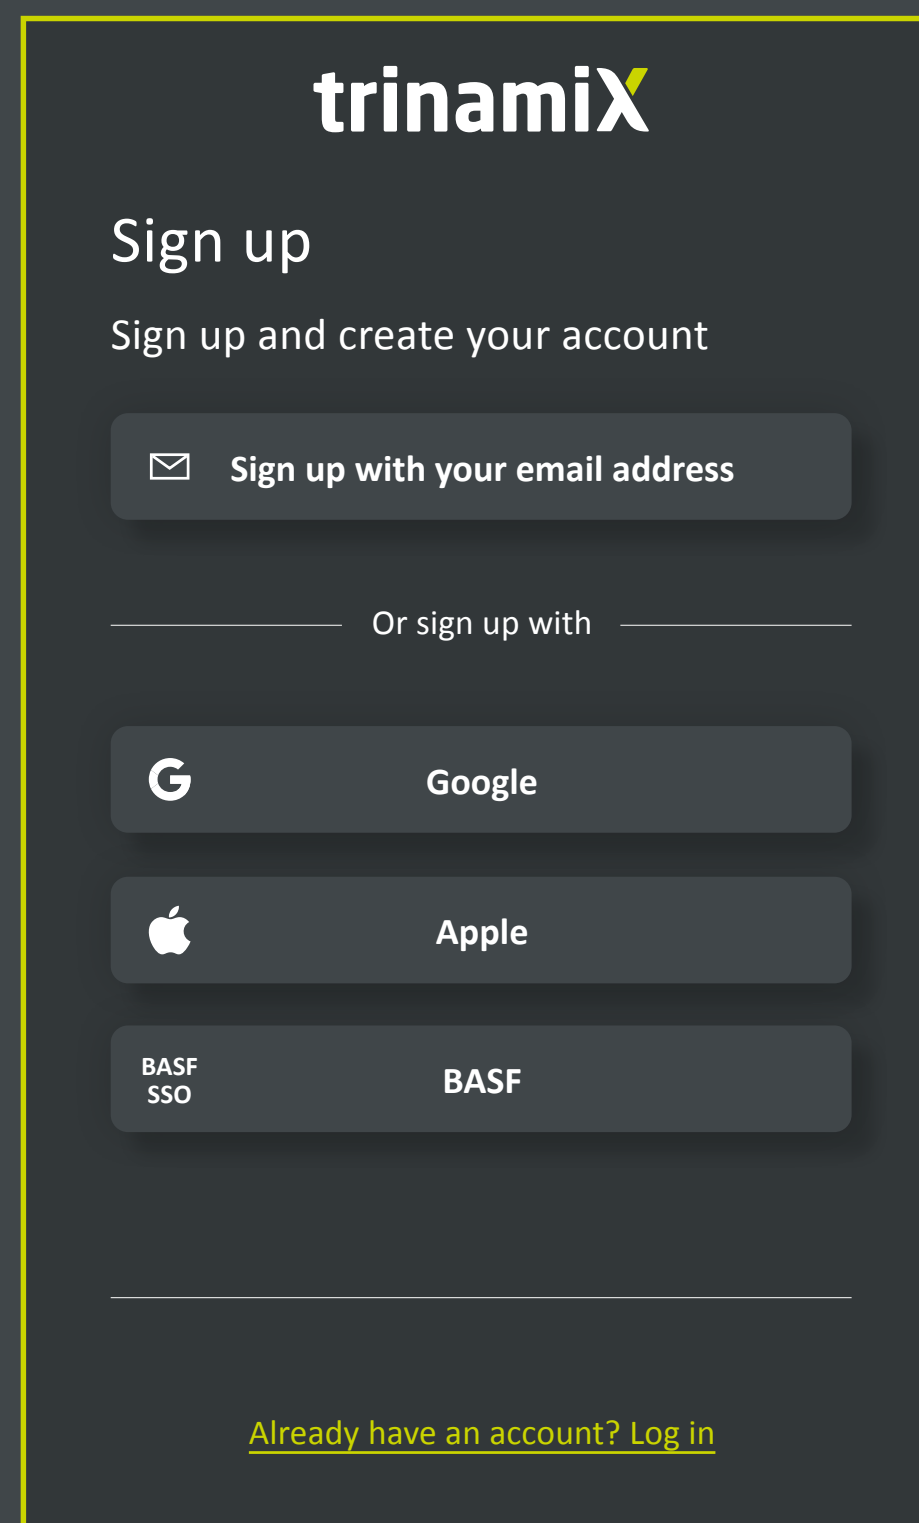

Step 1

Create a new account to get started

To do so, please visit the **trinamiX Customer Portal** to sign up and choose how you would like to register yourself.

You can use your Apple, Google or Microsoft account to register. We prefer that you use your personal business email address to sign up. We restrict the use of shared mailboxes.

trinamiX / BASF is reserved for trinamiX and BASF employees only.

The screenshot shows the trinamiX sign-up page. At the top is the trinamiX logo. Below it is the heading "Sign up" and the subtext "Sign up and create your account". There is a button with an envelope icon labeled "Sign up with your email address". Below this is a separator line with the text "Or sign up with". Underneath are three buttons for social login: "Google" with the Google logo, "Apple" with the Apple logo, and "BASF SSO" with the BASF logo. At the bottom, there is a link that says "Already have an account? Log in".

Step 2

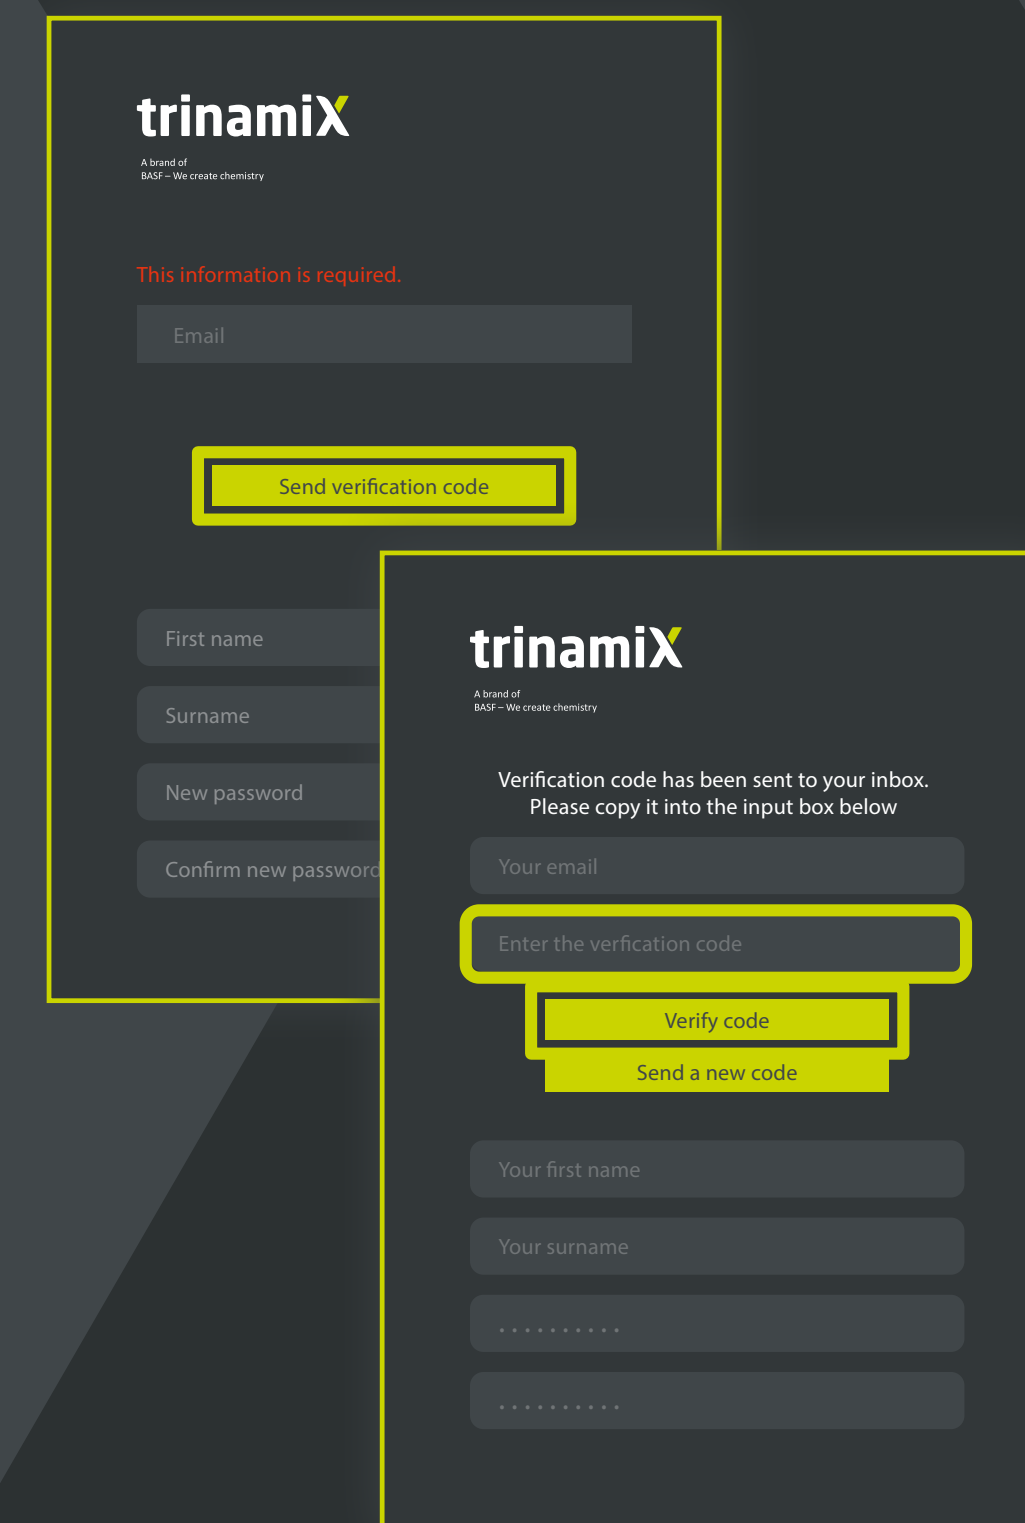

Initially confirm your email address

To verify your email address, a verification code is required, which you can request by clicking on the **Send verification code** button.

You will then receive an email with the code which is valid for 10 minutes. Please enter this code in the appropriate **Verify code** field.

In the last step, please confirm the privacy statement and the terms and conditions.

You will then receive a welcome email confirming that you are ready to log in and take your first measurements.

This block contains two screenshots of the trinamiX interface. The top screenshot shows the verification step: it features the trinamiX logo, a red error message "This information is required." above an empty "Email" input field, and a yellow "Send verification code" button. The bottom screenshot shows the registration completion step: it features the trinamiX logo, a message "Verification code has been sent to your inbox. Please copy it into the input box below", a "Your email" input field, a yellow "Enter the verification code" input field, a yellow "Verify code" button, and a yellow "Send a new code" button. Below these are input fields for "Your first name", "Your surname", and two masked password fields.
